1a. Do you approve, disapprove or abstain on this NWIP?

Disapprove

We don't see a clear application of the model driven approach in the context of the 19100 suite.

In case of disapproval, do you believe that further study and consultations are needed first among committee members on this proposal as a preliminary work item before this proposal can be formally accepted? **Yes**1b. Did you consult with the range of relevant stakeholders identified in the proposal in the development of this voting position and related comments? **Yes**2. Standard(s), regulation(s), and other relevant documentation existing in our country, with any remarks concerning their application if necessary and consequences for global relevance, as well as copyright information on these documents, are attached: **Yes (references provided below)**

the draft NZ Profile of 19160-1 is in the ISO repository

3. Do you wish to add any additional comments?

Yes
